We use natural fibres in our socks as we believe they are more comfortable and warmer on your feet than man-made fibres. Apart from the bed socks, we also add a proportion of nylon. This improves fit and provides additional durability. Our socks are all knitted in the Pakistan.

Sock Care - The safest way to wash our socks is by hand without wringing or rubbing, drying flat away from direct heat. Washing machines vary considerably, so although I successfully wash my socks on a Wool cycle with a small amount of detergent, I cannot guarantee good results in your machine. Do not tumble-dry the socks unless you want to then donate them to small children.
